

# Jobo M. Danque

Software Developer

111 C Benitez Street Brgy. Kaunlaran, Cubao, Quezon City, Manila PH 1109

Mobile: 0922-4002113 (Sun)

Email: jobodanque@gmail.com / jobodanque@yahoo.com

## Objective

I am consistent, hard working and highly motivated web developer. I enjoy working with a team while maintaining individuality. I feel that I am a friendly, outgoing and dependable teammate. Possessing strong points in logical reasoning and comprehension about software development. My objective is to leverage my experience while continuing to be challenged and expand my skills in the field of information technology. I am also looking to establish long term employment in a friendly environment.

## Experience

### **Programmer Analyst, Kforce Global Solutions Inc.** **May 2015 – May 2016**

Deployed at Safeway Philtech as Programmer Analyst. Tasks include creating web and desktop applications for the company using Java as my main programming language developed in Eclipse IDE. Also maintains objects used by the system and monitors deployment using a web service application.

#### *Accomplishments*

- Automated monitoring of jobs using web application
- Created Compare tool for excel files generated by another web app
- Created migration tool application for migrating objects from one database to another
- Created Rule Builder application that creates rules that is used by the company product and clients.

### **Front End Java Developer, PCM** **September 2013 - May 2015**

Creates and maintains widgets (reusable and extendable) primarily used on pcm sites deployed using the Tooltwist (third party) container/server. We are using maven as our project management tool accompanied by git as our version control system. Using mainly Java on the backend and PHP/jQuery (or native JS)/HTML/CSS on the front end, I develop sites/modules/sub-modules intended for international as well as local clients.

#### *Accomplishments*

- Created widgets used by the company for displaying products
- Created a CMS web application for maintaining product details
- Maintained and modified/upgraded internal website for employees

### **Software Engineer, Entertainment Gateway Group**

## June 2012 - June 2013

Creates and maintains Web Applications using Java language as the core and other programming languages like JavaScript, HTML, CSS, MSSQL in frameworks like Spring 3.0, MVC and Hibernate used in Eclipse development environment. Worked from front-end (JavaScript, jQuery, JSP, CSS, HTML) up to back-end (including MVC pattern, DB normalization, pojo implementations using annotation-driven Spring) development.

### *Accomplishments*

- Created Health Assist module for client's healthcare web application
- Created Provider module for client's healthcare web application
- Created Marketing module for client's healthcare web application

## Education

### **Polytechnic University of the Philippines, Main campus**

**Bachelor of Science in Information Technology — 2008-2012**

### **Immaculate Concepcion Cathedral High School**

**2001-2005**

### **Immaculate Concepcion Parish Elementary School**

**1995-2001**

## Skills

Productivity Tools	Eclipse, Notepad++, NetBeans, PuTTY, Wamp, Xampp, Adobe Photoshop, Microsoft Office Suite (Excel, Word etc.) Google Docs , Google Spreadsheets,
Programming Languages	Java / J2EE /J2SE JavaScript /jQuery / JSON / AJAX PHP CSS / CSS3 Java Servlet Pages ( JSP ) C
Markup Languages	HTML/HTML5
Frameworks	Spring ( annotations, MVC ) Hibernate MVC (pattern)/

Project  
Management Tools

Maven

Version Control  
Systems

Git, SVN

Database Systems

MySQL, MSSQL,  
Oracle SQL
